

# Technical Specifications

| Sr. No. | Factor                    | Details                    |                    |
|---------|---------------------------|----------------------------|--------------------|
| 1       | Component Name            | RT 6901 Insert             |                    |
| 2       | Component Size            | 170.1 mm x 76 mm x 71.0 mm |                    |
| 3       | Component Weight          | 1.567 Kg.                  |                    |
| 4       | Material Hardness         | 190 BHN (Minimum)          |                    |
| 5       | Current Volume            | Day - 150000               | Month - 450000 Nos |
| 6       | Material & Grade          | SG. Iron 500/7             |                    |
| 7       | Current method of working | On Grinding Process.       |                    |
| 8       | Flash size                | Thickness:-1.5-2mm.        |                    |
|         |                           | Width:-2mm.                |                    |
| 9       | Tensile Strength          | 500 N/mm <sup>2</sup> Min  |                    |
| 10      | Elongation                | 7 % Min                    |                    |
