Company Overview

Aashi Powertech India Private Limited is a private limited company incorporated under the Companies Act, 2013. The company operates as a non-government entity and is registered with the Registrar of Companies, Pune.

The company is established with a focus on delivering reliable and efficient solutions in its domain, with a commitment to quality, compliance, and long-term business sustainability.

Our Products & Services

APIPL Group manufactures ductile-iron and cast-iron castings on advanced ARPA 350 lines. With facilities in (12,000 MT), we deliver castings from 1 kg to 40 kg with assured consistency.

Our plant hold RDSO approved and are equipped with special-purpose machines and IoT systems, fully aligned with Industry 4.0 standards.

APIPL Group produces SGCI inserts for all sleeper types, with our Sundergarh, Odisha plant housing the country's largest facility, with a capacity of 9 lakhs inserts per month.

Quality Commitment

At Aashi Powertech India Private Limited, quality remains the foundation of every operation. The company focuses on:

- * Dimensional accuracy
- * High-strength SG iron casting
- * Process control & inspection
- * Reliable sourcing of raw materials
- * Customer-oriented manufacturing practices

Vision

Our vision is to establish ourselves as a globally recognized and trusted leader in the insert manufacturing industry, renowned for precision, quality, innovation, reliability, and technological excellence. We aspire to develop and manufacture high-performance inserts that meet the evolving requirements of various industries and consistently comply with national and international quality standards. By continuously investing in advanced manufacturing technologies, modern equipment, research and development, process improvement, and employee skill development, we aim to enhance our capabilities and deliver products that provide superior performance, durability, consistency, and value to our customers.

We are committed to building a culture of continuous improvement where quality and customer satisfaction remain at the heart of everything we do. Our vision is to develop long-term partnerships with customers, suppliers, employees, and other stakeholders through transparency, professionalism, ethical business practices, and dependable service. We aim to understand our customers' technical requirements and provide customized and cost-effective solutions that contribute to their productivity and operational efficiency. Through innovation and continuous technological advancement, we seek to remain adaptable to changing market demands and emerging industrial requirements.

At the same time, we envision sustainable and responsible growth by adopting efficient manufacturing processes, minimizing waste, optimizing the use of resources, and promoting environmentally responsible practices. We strive to create a safe, progressive, and professionally rewarding workplace where our people can develop their skills, contribute new ideas, and grow along with the organization. By combining quality manufacturing, technical expertise, innovation, customer-focused solutions, and responsible business practices, our vision is to build a strong and sustainable organization that earns lasting trust and recognition in the domestic as well as international market and sets new benchmarks in the field of insert manufacturing.

Mission

Our mission is to manufacture and deliver high-quality, precision-engineered inserts that consistently meet the technical requirements, quality expectations, and performance standards of our customers. We are committed to achieving excellence at every stage of the manufacturing process by adopting advanced technology, modern machinery, robust quality-control systems, and efficient production practices. Through continuous improvement, innovation, research, and development, we strive to enhance product quality, manufacturing efficiency, reliability, and overall customer value.

We aim to understand the changing needs of our customers and provide dependable, customized, and cost-effective solutions that support their productivity and long-term growth. Our commitment to quality extends from the selection of raw materials and process control to inspection, testing, packaging, and timely delivery. We continuously work towards maintaining consistency and precision in our products while ensuring compliance with applicable industry standards and customer specifications.

Our mission also focuses on developing a skilled, responsible, and motivated workforce by providing opportunities for training, learning, and professional development. We encourage teamwork, innovation, accountability, and a culture of continuous improvement throughout the organization. We believe that our employees are a key strength in achieving operational excellence and delivering superior products and services.

We are equally committed to conducting our business with integrity, transparency, professionalism, and respect for all stakeholders. We strive to build strong and lasting relationships with customers,

suppliers, employees, and business partners based on trust and mutual growth. At the same time, we are dedicated to responsible manufacturing by promoting workplace safety, efficient utilization of resources, waste reduction, energy efficiency, and environmentally conscious practices.

Through our commitment to quality, technology, innovation, customer satisfaction, employee development, and sustainable business practices, our mission is to create long-term value for our customers and stakeholders while establishing a strong and dependable presence in the domestic and international insert manufacturing market.
